

# Title: A Journey of Multi-Faceted Success: From Learning to Thriving

## Introduction:

Hello, I am Kajal Gupta, a 25-year-old who embarked on a transformative journey from Gujarat Commerce College in 2020. My voyage through college has shaped me into a versatile professional and a true multi-tasker. I've worn many hats, each contributing to the colourful tapestry of my success story.

## Chapter 1: Nurturing Dreams and Embracing Change

Leaving my hometown of Idar, I set foot in Ahmedabad to pursue my college education. Starting with Bachelors in Commerce, I ventured into the world of Chartered Accountancy (CA), gaining a comprehensive understanding of accounts. This journey of academic exploration was complemented by the accolades of gold medals in B.Com semesters 1 and 3, and a silver in semester 4.

## Chapter 2: Unveiling Creativity in Administration and Design

An opportunity at Darshan Design turned into a gateway to the world of interior designing. Initially managing administration, I embraced interior design, using this newfound passion to

transform my personal spaces. With my heart in design, I started and designed my own gift shop “**KS Cards and Scrapbooks**” in Gota, offering a unique range of handmade gifts.

## Chapter 3: From Leadership to Entrepreneurship

Stepping into the role of Learning Representative (LR) during B.Com semester 5, I took a break from my job and immersed myself in college activities. I channelled my creativity through workshops, culminating in trophies and igniting the spark for my handmade gift business. I also carved my name as the "Athlete of the Year" in 2018-19, leaving an indelible mark in college sports.

## Chapter 4: Spreading Knowledge and Inspiring Minds

Driven by my love for teaching, I launched a YouTube channel called "**Commerce Studies**," becoming a mentor to commerce students across levels. I further extended my reach through online private sessions, catering to those juggling work and study. This journey of education became another facet of my multi-dimensional identity.

## Chapter 5: Mastering Varied Fields

With Bachelor's in Commerce completed with distinction, I rejoined the interior designing industry as an admin manager. My thirst for knowledge and growth led me back to my alma mater for a master's degree. During this time, I even diversified my skills into the beauty and wellness sector, assisting my mother's beauty salon while simultaneously enhancing my skill set as a **makeup artist**.

## Chapter 6: Corporate Experience and the Pursuit of Excellence

An offer from TCS during my M.Com journey exposed me to the corporate world. I clinched the **Star Performer Award** in their learning program, gathering invaluable insights. My job profile there was of workflow specialist and there I worked a little over 6 months because through it was everything one could imagine; it could not offer the level of growth I was capable of.

## Chapter 7: A Trailblazing Career Path

Post-masters, my journey took an exciting turn as I embraced roles in accounting and quality control at packing manufacturing company named **Sanmati enterprises** which also provide packaging solution to pharmaceutical companies like Zyuds, Cadila, Torrent Pharma, Intas, Concord biotech, etc. My commitment to learning and innovation was evident as I consistently explored new avenues within the company, ultimately rising to the esteemed position of **General Manager** in just 2 years. Currently I am the **youngest General Manager** in history of this company.

## Chapter 8: Sharing Knowledge and Empowering Others

My journey led me to share my wealth of experience through seminars and workshops. From job interviews to artistry, I've empowered others to shine. The impact of my contributions spread to various platforms, showcasing my dedication to knowledge-sharing. Till now we have conducted a **seminars on "CV writing and preparation before interview" in Gujarat commerce college**. Also conducted **Painting and Resin work shop in "Government Commerce College, Gandhinagar"**.

## Chapter 9: Gratitude and Acknowledgments

My journey would not be complete without acknowledging the unwavering support of my dear ones - Suraj, Swati, and my father Vinod Gupta. Their presence during every step of my journey has been a guiding light. I am also grateful to Gujarat Commerce College for fostering an environment of growth and initiating this success story platform.

## Conclusion: A Journey Fueled by Passion and Perseverance

As I recount my journey, I am reminded of the twists, turns, and triumphs that have defined my path. From learning to teaching, from interior designing to corporate leadership, I've embraced diversity and overcome challenges. My multi-faceted journey exemplifies the potential within us all to pursue our passions, diversify our skills, and thrive in multiple arenas. With gratitude for the past and enthusiasm for the future, I step forward, eager to continue my ever-evolving narrative of success.
