Awareness Programme for Menstrual Hygiene
Date: 30/03/2022

Though there is openness of thoughts in today's life, the people do not talk openly for menstrual hygiene. Under the aegis of CWDC, our college has taken an initiative to introduce adolescent girls for understanding of how to use pad vending machine as well as how to dispose that pad. Students are encouraged to use high quality sanitary napkins instead of cloth pads. College also ensures safe disposal of Sanitary Napkins in an environmentally friendly manner. The committee members of CWDC explained and demonstrated practically to the girls about how to use vending machine as well as how to dispose the used pad. Disposable sanitary pads (of good quality) are undoubtedly a safe and hygienic option for managing menstruation. After the COVID – 19 college has again so many girls who are taking benefit of higher education are new to the college as they were learning through online mode only. Dr. Sheela Bhadani took an initiative and decided to demonstrate how to use the pad vending machine. The committee members explained them first of all why hygiene is important. Then demonstrated use of vending machine.

OUTCOMES OF PROGRAMME:

- Lessons are everywhere. It is on you to find them.
- Focus on the lesson, not the problem.
- It is on you to discover what that opportunity is.
- In life, nothing is "wrong" or "right". "Wrong" and "right," especially in regards to where you want to go in life, are relative terms.
