A seminar on Youth At Globe

Date: 25/01/2023

India has the best hiring outlook globally, second only to Brazil, with 54 per cent of companies surveyed planning to hire in the December quarter as against 51 per cent in the September quarter, according to a report by global staffing firm ManpowerGroup.

The technology industry is filled with largely experience-based jobs. Many of these jobs require minimal formal education, such as an associate degree or a certificate program. If students can demonstrate your ability to carry out the duties, they can qualify for a tech job that pays well. The job opportunities available for freshers were Computer Technician, Web editor, Multimedia Artist, Digital Marketing, Content Marketing, Graphic Designer, Data Analyst, Ux Designer, VFX Designer etc. It was really an amazing experience for the students to be part of the enlightening seminar.
